

Diagram illustrating the selection of a saw blade based on the material being cut. The diagram shows a cross-section of a workpiece with three different materials labeled 1, 57, and 9. Below the workpiece, three types of saw blades are shown:

- lampe tôle fine** (thin sheet metal blade) for material 1.
- lampe tôle épaisse** (thick sheet metal blade) for material 57.
- lampe inox** (stainless steel blade) for material 9.
- métal coupe courbe** (curved metal cutting blade) for material 9.
